

****About Us:****

Join SAIZ, a dynamic and rapidly growing B2B SaaS startup in the heart of Berlin! In just two years, we're revolutionizing the apparel industry with advanced analytics and AI-powered software solutions. Our mission is to help apparel brands reduce returns, boost customer satisfaction, and embrace sustainability. We thrive on innovation, collaboration, and a startup culture that fosters independence and creativity.

****Role Overview:****

We're looking for a talented and motivated Junior Data Analyst (f/m/x) to join our team. You'll play a crucial role in developing and maintaining our data pipelines, working closely with clients, and extracting valuable insights from their data. Your analysis will drive strategic decisions and enhance our product offerings.

****Key Responsibilities:****

- ****Data Pipeline Development:**** Maintain and develop efficient data pipelines for seamless data integration and processing.
- ****Client Collaboration:**** Work closely with clients to understand their data needs and provide tailored analytical solutions.
- ****Data Analysis:**** Identify patterns, trends, and insights to inform business strategies.
- ****Reporting:**** Create comprehensive reports and visualizations for internal teams and clients.
- ****Problem Solving:**** Use statistical and mathematical skills to solve complex data-related problems.
- ****Continuous Improvement:**** Stay updated with industry trends and best practices to enhance our data processes and methodologies.

****Qualifications:****

- ****Technical Proficiency:**** Strong skills in Python and SQL are essential. Familiarity with data visualization tools (e.g., Tableau, Power BI) is a plus.
- ****Analytical Mindset:**** Natural affinity for numbers, keen eye for detail, and a passion for uncovering insights.
- ****Educational Background:**** Degree in Statistics, Mathematics, Computer Science, or a related field.
- ****Experience:**** Previous experience in a data analysis role, especially in a startup or fast-paced environment, is preferred.
- ****Independence:**** Ability to work independently and manage multiple tasks effectively.
- ****Fast Learner:**** Eagerness to learn and adapt quickly in a dynamic startup environment.

- **Communication Skills:** Excellent verbal and written communication skills to articulate complex data insights to non-technical stakeholders.

Why Join Us?

- **Startup Culture:** Be part of an energetic and innovative startup environment.
- **Impact:** Directly influence our product development and business strategies with your insights.
- **Growth Opportunities:** Expand your skills and grow with our company as we scale.
- **Collaborative Team:** Work alongside a passionate and driven team that values creativity and independence.
- **Remote Work:** The job is full-time and remote.

How To Apply:

If you're enthusiastic about working in a startup environment and passionate about data analysis, we want to hear from you! Send your resume and a brief cover letter outlining your relevant experience and why you're a great fit for this role to maximilian.brinkmann@saiz.io.

At SAIZ, we are committed to creating an inclusive and supportive environment where all individuals can thrive. We warmly welcome candidates from all backgrounds and identities, valuing the unique perspectives each individual brings. Our dedication to diversity enriches our collective experiences and drives innovation.

Join us in transforming the apparel industry and digitizing fashion production with innovative data-driven solutions.
